

# Building Your Marriage Upon the Rock

---

## De'Shea and Brooke

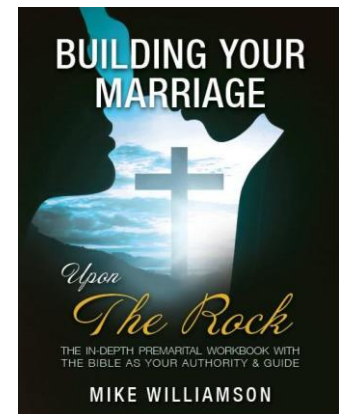

On preparing for marriage with *Building Your Marriage Upon the Rock*

Choosing *Building Your Marriage Upon the Rock* as our resource to prepare for marriage has definitely been a blessing to us. With this book, we were able to confirm that our beliefs were in alignment, work out some difficult situations, and work on minute details of our relationship that we would never have thought to talk about. The book asks some very difficult and sensitive questions in the most respectful way. It is definitely the best decision we've made for our marriage and for our marriage ministry.

Our premarital ministry struggled for years regarding consistency in its process to help others build their marriages. We've always been great at the courting process but to have a consistent process to pass along was difficult. Once we started using this book it truly streamlined our process. Now it's what engaged couples look forward to working through together with mentors who have been where they are.

My wife and I are truly grateful for *Building Your Marriage Upon the Rock*. Thank you so much from East Coast Revival Ministries!
